RYAN J. YOST

EMPLOYMENT

ServerCentral   Chicago, IL
Front End Web Developer   *01/2018 – present*
- Design, develop and maintain intuitive, highly-visual web applications that increase employee productivity
- Enhance development workflows and application architecture; vet and incorporate new tools and libraries
- Collaborate on APIs, wireframes, team prioritization, sprint planning, documentation, etc.
- Created a new React Native tablet app for warehouse employees
- Work on internal applications, customer portal and client software projects
- React, Redux, React Native, Bootstrap, Webpack, Cypress (Mocha/Chai), GitHub, Agile/Scrum

Brownson, Rehmus & Foxworth, Financial & Investment Advisors   Chicago, IL
Associate   *07/2017 – 12/2017*
Analyst   *06/2015 – 07/2017*
- Built and maintained complex Excel spreadsheets that required sound architecture and data management
- Utilized my mornings, nights and weekends to learn and gain experience in web development
- Became a CERTIFIED FINANCIAL PLANNER™ professional

SKILLS & EXPERIENCE

- React, Redux, React Native, Node.js, Express, Hapi.js, MongoDB, Cypress, Mocha, Chai
- JavaScript, ES6, Async/Await, HTML, CSS, jQuery, Bootstrap, Webpack
- RESTful APIs, Responsive Design, Git/GitHub/Bitbucket, AWS (minimal), Scrum/Agile

PORTFOLIO

- **MovieMedium.io –** A game where you predict the Rotten Tomatoes scores of upcoming movies. Play with friends on GroupMe or coworkers in Slack (available in the Slack app marketplace).

- **react-simple-storage –** Open-source component and helper functions for syncing web storage with React.

- **Newsbie.io –** Explore aggregated and analyzed news data from a diverse range of sources

- **DepChecker.com –** Generate an npm dependency report from a package.json file and export it to CSV.

- **TheDailyGray.com –** Explore political news & opinions using a custom grid system; Left-right political spectrum on the x-axis, subjectivity spectrum on the y-axis. Fully customizable and responsive

- **Notable technical tutorials**
  - "Redux-Saga tutorial for beginners and dog lovers" *Published in Hacker Noon*
  - "How to take advantage of Local Storage in your React projects" *Published in Hacker Noon*
